

“Great ideas need room to grow:  
discover the magic of the sea”

A real Mediterranean Oasis overlooking the sea: how  
special will your next meeting really be?

## GREEN POWER MEETING

A RESPONSIBLE APPROACH TO OUR MOTHER EARTH

The Grand Hotel del Mare Resort & Spa has created a new concept of meeting in which all the participants contribute to the preservation of our land. The meeting has always been the moment when new ideas are born and the uniqueness of human thought emerges. And it is precisely for this reason that we want to make this creative moment an immersion of the human soul in the nature that surrounds it: loving it, respecting it, protecting it.

The Green Power Meeting included:

- 🌿 On a separated table located at the function room entrance you will find notepads, pens and candies encouraging your participants to use only what is required, avoid waste.
- 🌿 The entire negotiation process will take place using only electronic tools, to conserve the paper.
- 🌿 Recycling bins will be placed directly in the function room.
- 🌿 We use only orchids and bonsai local produced instead of imported flower composition
- 🌿 All the food materials used by our chefs have a local origin and they are prepared in house; and in some cases are also certified Bio.
- 🌿 We reduce our energy requirements, the Resort is fully LED illuminated.
- 🌿 We control and manage the air conditioning systems to guarantee maximum thermal comfort.
- 🌿 In the meeting rooms you will find our Bio-flavored waters.
- 🌿 All our Bio Energy Coffee Breaks have fresh juices, cold extracts as well as biscuits, cakes and homemade pastry made by our Pastry Chef.

 Our Green Power Lunch and Dinner are all made at home and do not contain pre-packaged products.

The rental of the room includes the basic technical equipment and: the use of video projector or mockery LCD with low energy consumption, flipchart, radio-microphones, Wi-Fi, parking.

All our dishes contain information about allergens and on request can be made menus for celiacs and vegans.

During your stay in the Resort rooms and Suites with our "Eco Program" we ask your cooperation to contribute in reducing water and energy consumption choosing the timing of replacement of bed linen and towels.

Enjoy the show, we'll worry about the rest. Our experienced event planners are ready to help you from the planning stage and throughout the event until the last guest leaves.
